

Storyboards: Start screen

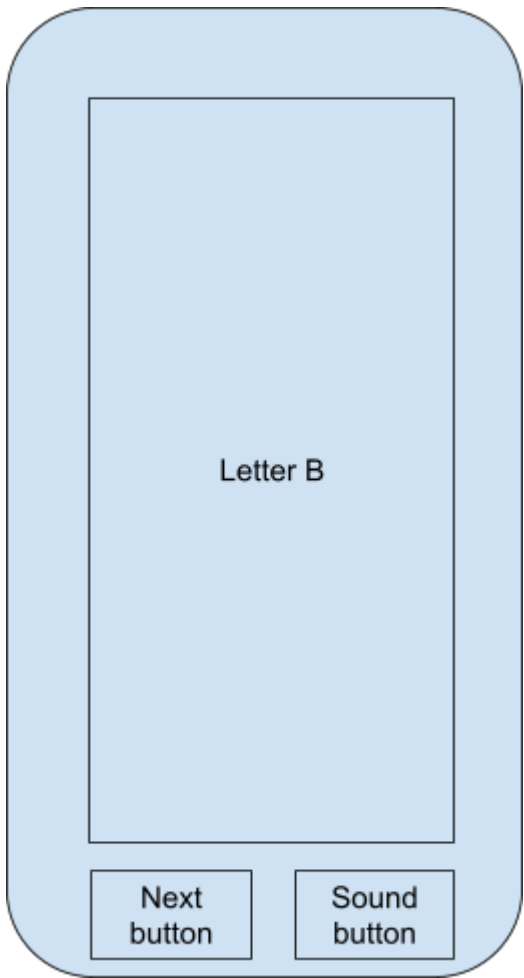

Assets:	Events input and output:
start.screen.jpg logo.jpg startbutton.jpg	Start button to take you to the next page.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
have the logo the full length of the screen at the top rather than in the top corner	Home screen that introduces the alphabet app. A logo at the top of the screen with the name of the mobile app also an image with the letters of the alphabet on and a start button taking you to the next screen on the mobile app.

Storyboards: Letter A

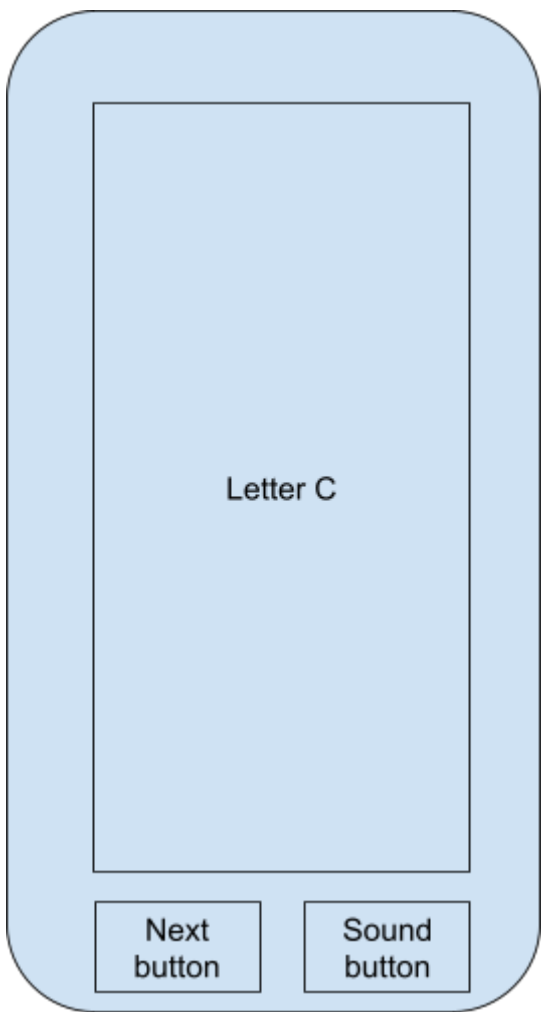

Assets:	Events input and output:
lettera.avif nextbutton.jpg soundbutton.jpg	Next button to go to the next screen and play button to play the corresponding sound to the letter A also drawing on the screen.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
different colours to draw with on the screen	Have children recognise the shape and the sound of the letter A. Picture the letter A of the alphabet a next button to take you to the next screen also a play sound button that speaks the sound of the letter A when pressed.

Storyboards: Letter B

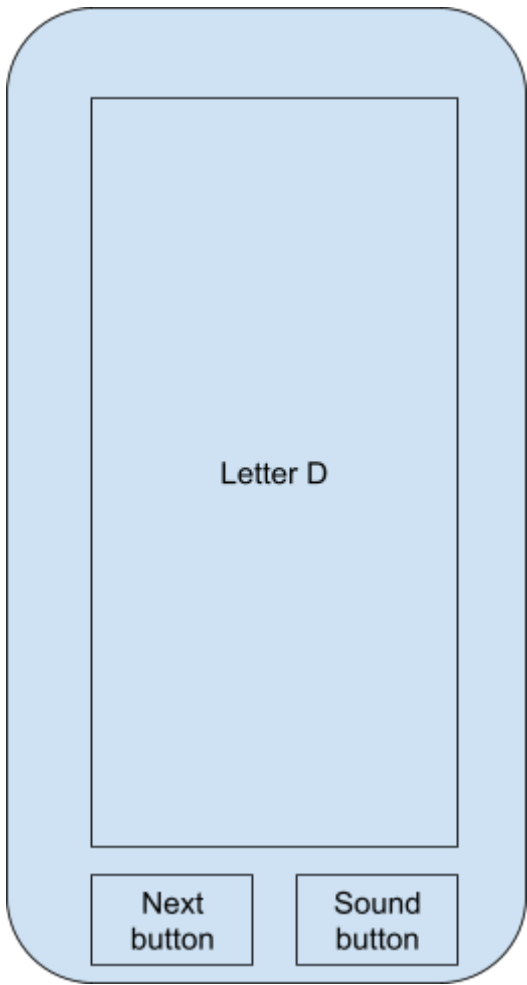

Assets:	Events input and output:
letterb.webp nextbutton.jpg soundbutton.jpg	Next button to go to the next screen and play button to play the corresponding sound to the letter B also drawing on the screen.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
Have the next button and start button at the top of the screen not at the bottom.	Have children recognise the shape and the sound of the letter B. A picture of the letter B on the screen, a next button that allows you to go to the next screen and also a play sound button when pressed it speaks the sound of the letter B.

Storyboards: Letter C

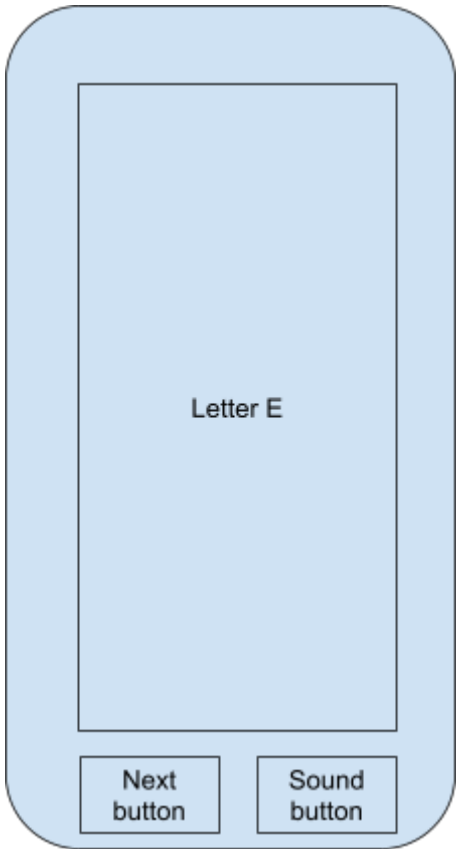

Assets:	Events input and output:
letterc.jpg nextbutton.jpg soundbutton.jpg	Next button to go to the next screen and play button to play the corresponding sound to the letter C also drawing on the screen.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
	Have children recognise the shape and the sound of the letter C. A picture of the letter C of the alphabet on the screen , a next button that allows you to go to the next screen and a sound button when pressed it plays the sound of the letter C.

Storyboard: Letter D

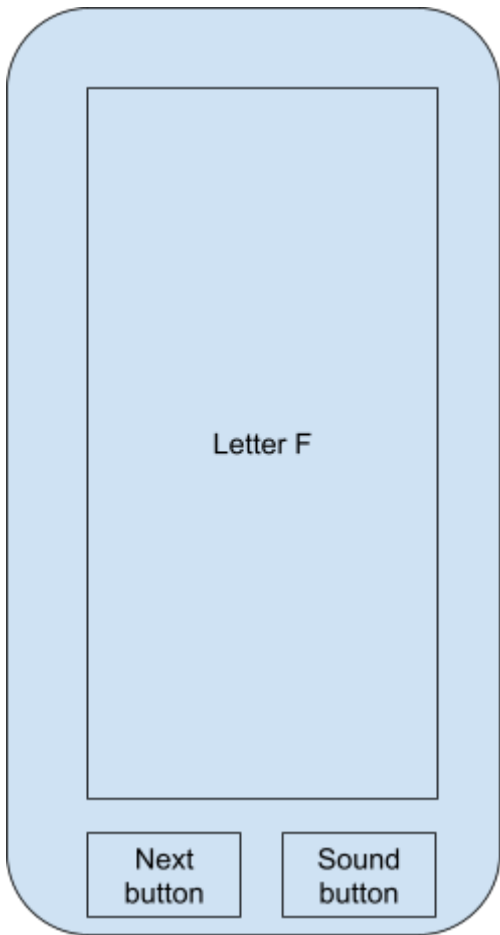

Assets:	Events input and output:
letterd.webp nextbutton.jpg soundbutton.jpg	Next button to go to the next screen and play button to play the corresponding sound to the letter D also drawing on the screen.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
	Have children recognise the shape and the sound of the letter D. A picture of the letter D of the alphabet on the screen also shows the use of a next button which will take you to the next screen and a play sound button when pressed will say the letter D of the alphabet.

Storyboard: Letter E

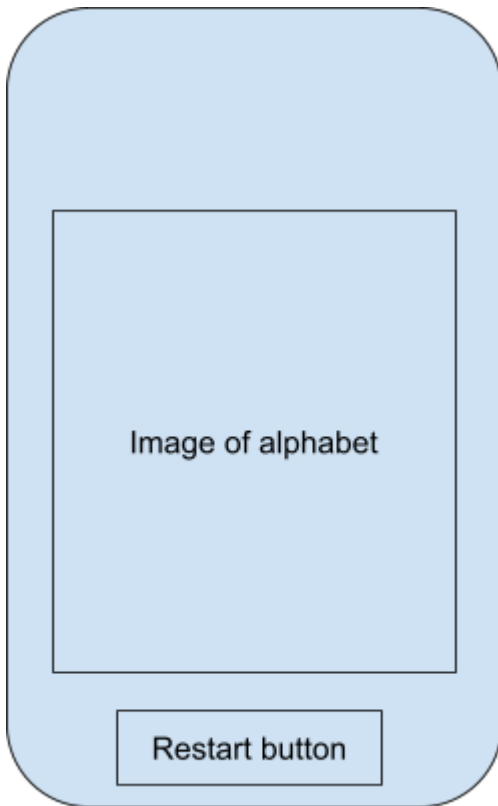

Assets:	Events input and output:
Lettere.webp nextbutton.jpg soundbutton.jpg	Next button to go to the next screen and play button to play the corresponding sound to the letter E also drawing on the screen.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
	Have children recognise the shape and the sound of the letter E. Picture of the letter E of the alphabet also a next button that will take you to the next screen of my mobile app and also a play sound button that will play the sound of the letter E.

Storyboard: Letter F

Assets:	Events input and output:
Letterf.webp nextbutton.jpg soundbutton.jpg	Next button to go to the next screen and play button to play the corresponding sound to the letter F also drawing on the screen.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
	Have children recognise the shape and the sound of the letter F. Picture of the letter F of the alphabet a next button that takes you to the next screen of my mobile app also a play sound button that when pressed will play a sound of the letter F of the alphabet.

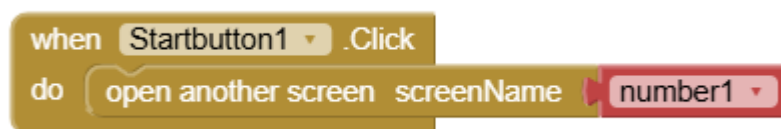

Storyboard: Finish screen

Assets:	Events input and output:
endscreen.jpg restart.jpg	Restart button to go back to the start screen.
Design notes/Alternative ideas:	Method of solution/(What does this screen do?)
Put the same logo of the start screen on this screen too.	Takes you back to the beginning and shows you have reached the end screen. End screen image and also a restart button that takes you back to the beginning of my mobile app which you can play it again from.

Asset list:

Description of Asset:	File Name:	Source:	Modifications made:	Where used:
Colourful alphabet image	startscreen.avif	twinkl.co.uk	none	start screen
App logo showing name of app	logo.png	self	none	start screen
Letter A for Apple	lettera.avif	Vectorstock.com	none	Letter A
Letter B for bear	letterb.webp	superstar worksheets.com	none	Letter B
Letter C for cat	letterc.jpg	superstarworksheets.com	none	Letter C
Letter D for dolphin	letters.webp	superstarworksheets.com	none	Letter D
Letter E for elephant	lettere.webp	Superstarworksheets.com	none	Letter E
Letter F	letterf.webp	superstarworksheets.com	none	Letter F
Start button	start.png	google drawings	none	start screen
Play sound button	playsound.png	google drawings	none	Letters A to F
Next button	nextbutton.png	google drawings	none	Letters A to F
Restart button	restartbutton.png	google drawings	none	Finish screen
Colourful alphabet image	endscreen.jpg	istockphoto.com	none	Finish screen
clear canvas button	clearcanvasbutton.png	googledrawings	none	letters A to F

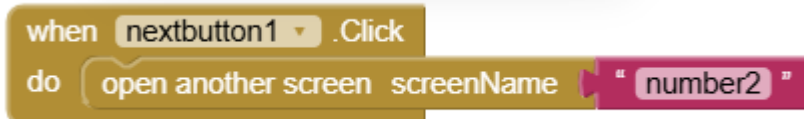

Pre defined code that I will be using:

This is the code that I will be using on the start button that will allow the app to start when you click on the start button and it will take you to the next screen. I will be replacing the number 1 with Letter A.

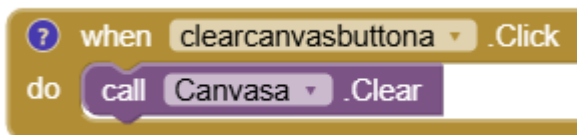

```
when playsoundbutton1 .Click
do call Player1 .Start
```

This is the code I will be using for the play sound button to play a sound corresponding to the letter on the screen.

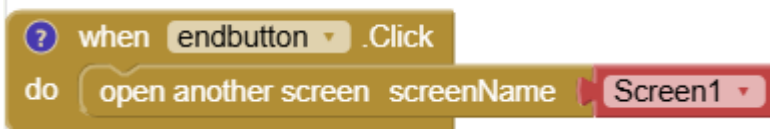

```
when nextbutton1 .Click
do open another screen screenName "number2"
```

This is the code I will be using to go to the next screen of my mobile app. The number 2 will be changed for the letter in order to the next page example A,B,C,D,E,F.

```
? when clearcanvasbuttona .Click
do call Canvasa .Clear
```

This is the code I will be using for the clear canvas button that will clear the screen when you have finished drawing on the screen.

```
? when endbutton .Click
do open another screen screenName Screen1
```

This is the code I will be using for my end button when pressed it will take you back to the home screen of my mobile app to start again.

Pseudocode:

Start screen:	Letter A:	Letter B:	Letter C:	Letter D:	Letter E:	Letter F:	Finish screen:
When start button clicked open another screen screen name letter A	when canvas dragged draw line when playsound button clicked play sound when clear canvas button clicked clear canvas when next button clicked open another screen screen name B	when canvas dragged draw line when playsound button clicked play sound when clear canvas button clicked clear canvas when next button clicked open another screen screen name C	when canvas dragged draw line when playsound button clicked play sound when clear canvas button clicked clear canvas when next button clicked open another screen screen name D	when canvas dragged draw line when playsound button clicked play sound when clear canvas button clicked clear canvas when next button clicked open another screen screen name E	when canvas dragged draw line when playsound button clicked play sound when clear canvas button clicked clear canvas when next button clicked open another screen screen name F	when canvas dragged draw line when playsound button clicked play sound when clear canvas button clicked clear canvas when next button clicked open another screen screen name finish screen	when end button clicked open another screen screen name start screen

Test plan & Log:

Test No	Screen	Test description	Test data(user input/action)	Expected outcome	Actual outcome	comments
1	Start screen	Loads and displays	Open the app	Start screen displays image correctly and start button is visible		
2	Start screen	Navigation (start button)	Press the start button	Letter A screen is displayed		
3	Letter A	Letter A of alphabet displayed on the screen	Image loads on the screen	Letter A screen displays image with the letter A on it		
4	Letter A	Check drawing function works	draw on the screen with your finger across the image	A coloured line should appear where you are drawing on the screen		
5	Letter A	Sound working	Press sound button (playsoundbutton.png)	when the sound button is pressed it should say the Letter A of alphabet		
6	Letter A	Clear button works	Press clear button (clearbutton.png)	All drawing lines are cleared		
7	Letter A	Next button works	press next button (nextbutton.png)	Letter B screen is displayed		
8	Letter B	Letter B of alphabet displayed on the screen	Image loads on the screen	Letter B screen displayed with image letter B on it		

9	Letter B	Check drawing function works	draw on the screen with your finger across the image	A coloured line should appear where you are drawing on the screen		
10	Letter B	Sound working	Press sound button (playsoundbutton.png)	When the sound button is pressed it should say the letter B of the alphabet		
11	Letter B	Clear button works	Press clear button (clearbutton.png)	All drawing lines are cleared		
12	Letter B	Next button works	Press next button (nextbutton.png)	Letter C screen is displayed		
13	Letter C	Letter C of alphabet displayed on the screen	Image loads on screen	Letter C screen displays an image of the letter C		
14	Letter C	Check drawing function works	Draw on the screen with your finger across the image	A coloured line should appear where you are drawing on the screen		
15	Letter C	Sound working	Press sound button (playsoundbutton.png)	When the sound button is pressed it should say the letter C of the alphabet		
15	Letter C	Clear button works	Press clear button (clearbutton.png)	All drawing lines are cleared		
16	Letter C	Next button works	(nextbutton.png) Press next button	Letter D screen is displayed		
17	Letter D	Letter D of alphabet image displayed on the screen	Image loads on the screen	Letter D screen displays image of the letter D		

18	Letter D	Check drawing function works	Draw on the screen with your fingers across the image	A coloured line should appear where you are drawing on the screen		
19	Letter D	Sound working	Press sound button (playsoundbutton.png)	When the sound button pressed it should say the letter D of the alphabet		
20	Letter D	Clear button works	Press clear button (clearbutton.png)	All drawing lines are cleared		
21	Letter D	Next button works	Press next button (nextbutton.png)	Letter E screen is displayed		
22	Letter E	Letter E of the alphabet displayed on the screen	Image loads on the screen	Letter E screen displays letter E of alphabet on the screen		
23	Letter E	Check drawing function works	Draw on screen with your fingers across the image	A coloured line should appear where you draw		
24	Letter E	Sound working	Press sound button (playsoundbutton.png)	When the sound button pressed it should say the letter E of the alphabet		
25	Letter E	Clear button works	Press clear button (clearbutton.png)	All drawing lines are cleared		
26	Letter E	Next button works	Press next button (nextbutton.png)	Letter F screen is displayed		
27	Letter F	Letter F of the alphabet displayed on the screen	Image loads on the screen	Letter F screen displays the letter F of the alphabet		
28	Letter F	Check drawing	Draw on the screen with your finger across	A coloured line should		

		function works	the image	appear where you draw on the screen		
29	Letter F	Sound working	Press sound button (playsoundbutton.png)	When you press the sound button it should say the letter F of the alphabet		
30	Letter F	Clear button works	Press clear button (clearbutton.png)	All drawings are cleared		
31	Letter F	Next button works	Press next button (nextbutton.png)	End screen is displayed		
32	End screen	Loads and displays	Open the app	End screen displays the image on the screen		
33	End button	Navigation end button	Press the end button	Takes you back to the start page
